The Ministry of Finance would like to remind all those subject to the VAT of the need to abide by the obligation to display their VAT registration certificate in a prominent location for the clients to see it, so they can check it and verify that the taxpayer is duly registered in the VAT.

It is also worth noting that item 4 of Directives no. 538/S1 of 18/03/2008, on the determination of the date on which the registration shall enter into effect for VAT taxpayers, stipulates the obligation for the taxpayer to pick up his registration certificate and display it in a prominent location.
