

Date: 3 November 2017

Some media outlets have been circulating false news claiming that foreign entities have received the passwords of large Lebanese taxpayers such as banks, financial institutions and real estate companies and other major companies operating in Lebanon.

The Ministry of Finance refutes unequivocally everything published, broadcasted or transmitted regarding those claims, and calls on the media and interested parties to investigate deeper the topics they cover, and not to draw conclusions based on inaccurate information, especially topics related to financial stability and Lebanon's reputation at international organizations.
